INTELLIGENT POWERTRAIN THAT LEADS THE TIMES

1.5 Litres i-VTEC DOHC with Variable Timing Control (VTC)

Based on the High Accuracy Valve Control Technology called DOHC i-VTEC + VTC, this engine improves combustion efficiency, reduces friction and lowers emissions. It is a high performance engine that delivers 89 kW (121 ps) power and 145 Nm torque, with quicker torque increase at lower engine speed.

ADVANCED CVT: THE ULTIMATE AUTOMATIC

Developed as part of Earth Dreams Technology, CVT or Continuously Variable Transmission is Honda innovation at its best. Since power from the engine is continuously fed to the car tyres, CVT makes the ride smoother. It ensures the engine performs within a speed range that is best for fuel efficiency with 7-Speed Paddle Shifters, Step Up-shift and Brake Down-shift control. Elevate your rush with the supremacy of Honda CVT.

• 7-Speed CVT i-VTEC (Petrol) - 18.4 km/l***

6-SPEED MANUAL TRANSMISSION

The Manual Transmission (MT) features 6 forward speed ratios.
This achieves a better driving experience with improved fuel efficiency.
The 5 gear ratios are optimized for thrilling pick-up/acceleration, while the 6th gear overdrive ratio maximises stress-free low engine revolutions
when cruising at high speeds and this is what obtains better fuel efficiency.

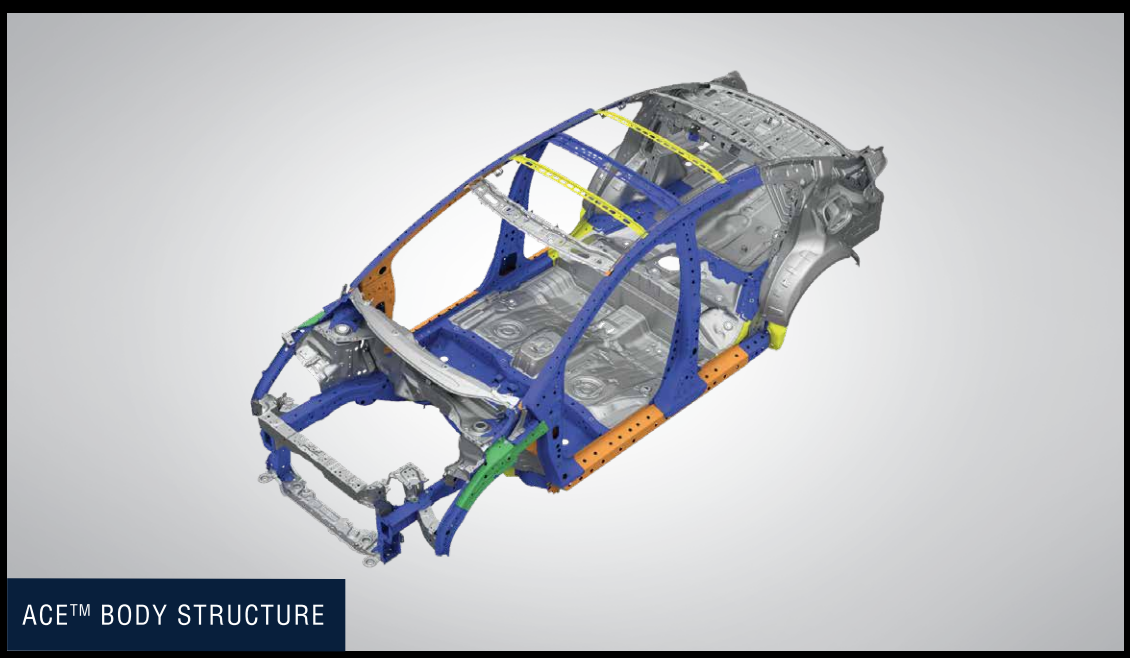

• 6-Speed MT i-VTEC (Petrol) - 17.8 km/l***

TOMORROW'S SAFETY STANDARDS. FOR TODAY'S DRIVING.

6 AIRBAGS (DUAL FRONT, i-SRS, AIRBAGS, FRONT SEATS i-SIDE AIRBAGS & SIDE & CURTAIN)

ACE™ stands for Advanced Compatibility Engineering™, and it's a Honda-exclusive body design that uses a network of front frame structures to absorb and deflect the energy from a frontal collision. This helps reduce the force transferred to the cabin and more evenly disperse the forces transferred to other vehicles involved. That means it's not just Honda drivers that are safer in the event of a collision-it's everybody. Add to this the world's first i-SRS Airbag System with Quick Deployment Technology, as well as the 1st in First-in-segment^ LaneWatch™ camera system which supplements side mirrors and uses a screen inside the vehicle for the driver to keep aware of the surroundings without taking their eyes off the road.
